Zeb,
Attached is a pdf of the seed mix I came up with. All species are in the Granite Seed catalog, so hopefully they have them in stock. I have no idea what the current prices are on them.
Let me know if you have any questions.
Thanks,

Zeb,
I will need a location for where this site is to determine the appropriate vegetation community for where it sits. The permit number will be good enough, I can locate it with that. I also want to check the permit file to make sure a seed mix wasn't already determined at some time in the past. Since Salt Lake County isn't my area, I don't want to step on any toes...

Thanks,
